Fluoroplastics: Volume 1: Non-Melt Processible Fluoropolymers - The Definitive User's Guide and Data Book (Hardback)

By Sina Ebnesajjad

William Andrew Publishing, United States, 2014. Hardback. Book Condition: New. 2nd Revised edition. 279 x 224 mm. Language: English . Brand New Book. Fluoroplastics, Volume 1, compiles in one place a working knowledge of the polymer chemistry and physics of non-melt processible fluoropolymers with detailed descriptions of commercial processing methods, material properties, fabrication and handling information, technologies, and applications. Also, history, market statistics, and safety and recycling aspects are covered. Both volumes contain a large amount of specific property data which is useful for users to readily compare different materials and align material structure with end use applications. Volume 1 concentrates mostly on polytetrafluoroethylene and polychlorotrifluoroethylene and their processing techniques - which are essentially non-melt-processes - used across a broad range of industries including automotive, aerospace, electronic, food, beverage, oil/gas, and medical devices. Since the first edition was published many new technical developments and market changes have taken place and new grades of materials have entered the market. This new edition is a thoroughly updated and significantly expanded revision covering new technologies and applications, and addressing the changes that have taken place in the fluoropolymer markets. Fluoroplastics, Volume 1 is an all-encompassing handbook for non-melt processible fluoropolymers - a unique...

Reviews

This composed book is fantastic. it absolutely was written quite properly and helpful. I am very happy to explain how this is the very best ebook i actually have read during my own existence and may be the best pdf for actually.

-- Prof. Elody D'Amore

An incredibly wonderful ebook with perfect and lucid explanations. I really could comprehend every little thing using this written e publication. It is extremely difficult to leave it before concluding, once you begin to read the book.
