W W Norton Co Ltd, United States, 2014. Paperback. Book Condition: New. 208 x 137 mm. Language: English . Brand New Book. A work that deeply reconceptualizes the New Deal and raises countless provocative questions (David Kennedy), Fear Itself changes the ground rules for our understanding of this pivotal era in American history. Ira Katznelson examines the New Deal through the lens of a pervasive, almost existential fear that gripped a world defined by the collapse of capitalism and the rise of competing dictatorships, as well as a fear created by the ruinous racial divisions in American society. Katznelson argues that American democracy was both saved and distorted by a Faustian collaboration that guarded racial segregation as it built a new national state to manage capitalism and assert global power. Fear Itself charts the creation of the modern American state and how a belief in the common good gave way to a central government dominated by interest-group politics and obsessed with national security (Louis Menand, The New Yorker).
