Reviews

This published book is wonderful. It is really simplified but unexpected situations within the fifty percent of the ebook. Once you begin to read the book, it is extremely difficult to leave it before concluding.

(Dr. Janis Reilly)

TEACHING HEALTH PROFESSIONALS ONLINE: FRAMEWORKS AND STRATEGIES

AU Press. Paperback. Book Condition: new. BRAND NEW, **Teaching Health Professionals Online: Frameworks and Strategies**, Sherri Melrose, Caroline Park, Beth Perry, **Teaching Health Professionals Online: Frameworks and Strategies** is a must-read for professionals in the healthcare field who strive to deliver excellence in their online classes. Intended for a wide range of professionals, including nurses, social workers, occupational and radiation therapists, chiropractors, dietitians, and dental hygienists, this compendium of teaching strategies will inspire both new and experienced instructors in the health professions. In addition to outlining creative, challenging activities with step-by-step directions and explanations of why they work, each chapter in the text situates practice within the context of contemporary educational theories such as instructional immediacy, invitational theory, constructivism, connectivism, transformative learning, and quantum learning theory. Melrose, Park, and Perry also address other issues familiar to those who have taught online courses. How can a distance instructor build teacher-student relationships? How does one transform the assumptions often held by students in the health fields from the confines of the virtual classroom? Most importantly, how can the instructor support his or her students in their future pursuits of knowledge and their development as competent professionals? By considering these and other concerns, this handbook aims to help instructors increase student success and satisfaction, which, the authors hope, will ultimately produce the best possible patient care.
